SV300-R / SV300-L

The Platinum Packaging Group offers counter top sealing solutions: SV300

These innovative heat sealers seal and cut film in one easy motion from a single roll of film. They will seal film or board lids to microwaveable and ovenable paperboard and CPET. It also makes for a nice presentation of deli products, meat, seafood and bakery, a great fit for various departments. Not to mention this compact heat sealer allows you to conveniently store it almost anywhere when not in use.

Features & Benefits

- Perfect for cutting and sealing film lids for: hot, frozen, fresh or refrigerated take-out foods
- Industrial quality, stainless steel and anodized aluminum construction
- Versatile - Seals small and mid size trays in paperboard or CPET trays
- Gas spring activated, Silver Stone Sealing Plate, Ergonomic Grip
- Film hold down device holds film taut and assures good seals
- Floating head design minimizes irregular tray sealing flanges
- Film cut-off is less than 1/4" from end of tray to cutting knife
- Easy to read thermometer and easy to adjust thermostat
- Efficient - Seals approximately 8-10 trays per minute Provides a
- low-cost investment and sealing option
- Easy to use and you can change tray sizes in seconds Compact - Requires little table space
