GROWING DEMAND FOR PREPARED MEALS = PROFITABLE GROWTH OPPORTUNITIES

Growth of fresh prepared foods is outpacing retail packaged goods and food service by more than 50% (Technomic, 2013)

With a rising number of single households, now 28%, great opportunities for food manufacturers are forming. These households have a high demand for frozen or ready meals that are portable and offer single portions (Food Processing Magazine, 8/2013)
