

LETTER OF COMPLIANCE

Product TYPE: CX 100 PP or 80g

Date Issued: TBD

All PPG Films are produced for the requested physical properties of our customers and formulated for those intended purposes.

These statements do not cover: any modification of our product by any addition of any other product to it; any prejudicial modification of our product resulting from a processing of the product; or an inadequate use and/or storage of our material or the finished articles by the end user.

Consequently, this letter certifies that the above film types are produced by PPG Films, a division of IBFC and complies with all Regulation requirements identified in this Letter of Compliance.

PPG films should be placed in the processing area 24 hours prior to processing to acclimatize. PPG films are largely unaffected by climatic conditions but should not be stored at temperatures above 100 deg F (38 deg C) and less than 32 deg F (0 deg C). Under suitable storage conditions the film can be stored for a period of six months without any risk of deterioration

I hope that this information is sufficient.

Yours truly,

Rhonda Morales
