

## Installation Process and Procedure

**In preparing for the delivery of your new machine the following guidelines are necessary**

### Day the machine will arrive, you will need:

- A roll off dock and or a forklift for your designated staff member(s) to remove the machine from the truck to your warehouse/kitchen. Please keep in mind length & width of machine for off load and doorway entries.
- Remove machine from pallet, unpack and put wheels on for preparation of installation.
- Store in a safe place until our Technician arrives for installation.

### The day of installation the following is required prior to arrival:

- Provide a clear space allocated for where the machine is going be located.
- You will need Power and a Plug, cord is provided however due to various styles of plugs & unique outlets to every kitchen, they are not provided. Do not plug in prior to Technicians arrival.
- Power & Air needed (see attached specification sheet and or quotation for details)
- Film and trays that will be running on this machine.
- Allow two (2) hours minimum for installation and training.

If you have further questions, please do not hesitate to contact your Platinum Rep.

Thank you for making this purchase and your assistance in prepping your facility prior to us arriving. We look forward to working with you and your staff.

Sincerely,

The Platinum Packaging Group
