## SR60 MODEL

SHRINK RANDOM  
HORIZONTAL WRAPPER

**PLATINUM R60 MODEL**  
**Random Horizontal Wrapper**

is also available with the same features as the Model SR60, but *without* shrink capability

**Platinum's SR60 Model** Random Length Horizontal Shrink Wrapper is specifically designed to overwrap products such as window shades, molding, loaves of bread and specialty tubing which are consistent in terms of height and width, but may vary in length.

Equipped with special sensing devices to measure the length of any package, the SR60 makes an end seal at the precise place a seal is required.

The operator places the product on the infeed conveyor belt, which automatically transports the

product into a film tube created by an adjustable former. When the product's leading edge reaches a photo cell, the rotary end crimper cycles, thus sealing that edge. When the trailing edge is sensed, the end crimper rotates again to make the trailing seal.

Because each product is sensed continuously by the wrapper, products of many different lengths can follow one another into the wrapper. This means you can wrap products of random lengths without the slightest hesitation up to 120 feet of shrink film per minute.

# Platinum SR60 Model Shrink Random Horizontal Wrapper

Overall Dimensions 204" x 42" x 65"

## SPECIFICATIONS

### Machine Size (Approx.)

Length - 204"  
Width - 42"  
Height - 65"

### Infeed Conveyor

Length - 120" x 6" Wide Belt  
Feed Space - 96"  
Height Above Floor - 36"

### Wrapping Material

Maximum Parent Roll Diameter - 13"  
Roll Width - 20"  
Single Parent Roll Backstand

### Fin Seal Assembly (length seal)

First Set - Pulling  
Second Set - Sealing  
Third Set - Pulling

### End Crimper (cross seal)

1-up x 10" wide

### Product Discharge

Conveyor, 48" long

### Three Heat Controllers

Digital

### Product Flow

Left to right, facing the control panel

### Polyurethane Finish

### Maximum Package Size

(cannot be tolerated simultaneously)  
Length - unlimited  
Width - 9"  
Height - 2-5/8"

### Electrical

3/4 HP DC Drive Motor  
230V, 3PH 60H

### Weight

1800 lbs.

## OPTIONAL EQUIPMENT

### Expanded Size Range

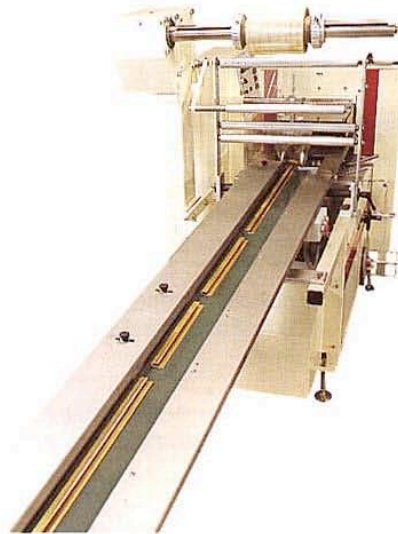

### Extended Infeeds

### Expanded Spare Parts Kit

### Casters

### Double Parent Roll

### Sealing System for Polypropylene Films

Products  
of varying  
length can be  
automatically  
overwrapped
